Mgr.art. Viktor Hárs, declares that he has attended the Erasmus exchange at *Janáček Academy of Music and Performing Arts* in Brno, Czech Republic (20/10/2015 – 19/01/2016).

Any of such international opportunities, like the Erasmus+ programme, are especially good for getting closer to each other cultures. However, in the case of music it seemed more essential. Teaching experience in a neighbouring country triggered our perspective in the use of musical devices, in teaching methods and in ordinary life.

During this time I have had the opportunity to improve my skills of teaching, leading and analyzing the methods of ensemble playing and practising. Also I had experience of making workshops for fellow bass players, exchange methods and techniques.

The experience at the receiving institution was excellent and positive in every detail.

Last but not least, I really appreciated the generous financial support that made this special opportunity possible.

Thank you for all!
