RECOMMENDATION

I, the undersigned Nelida Nedelcuț, Univ.Prof.PhD. at “Gheorghe Dima” Music Academy, I have benefited from two Erasmus mobilities in 2015 (27th of April-1st of May) and 2016 (8th-15th of June) at the Akadémia Jána Albrechta Banská Štiavnica, Slovakia, in the field of Theory, Musicology, Music Pedagogy

In the relations with the Erasmus office of this institution I have benefited from an excellent collaboration and the activities at the host institution were very good organized. During the didactic activities that I have participated to I have noticed the students’ interest in knowing the guest professors and experience different theoretical and methodological approaches. These students’ level of musical education is high and the professional involvement and the collegial spirit have determined setting excellent relationships.

The teachers from Akadémia Jána Albrechta Banská Štiavnica, Slovakia have showed the same interest for guest professors and some of them participated in the activities organized through the Erasmus mobility. The excellent location of the institution, the good communication between students and professors create the illusion of a two-sided family both interested in an optimal professional training and in organizing artistic events attended by the community of the region.

In the near future we are planning to continue the mobilities between the Music Academy of Cluj-Napoca, Romania, and the Academy of Banská Štiavnica, Slovakia, in both directions, with the participation of students and professors in courses, artistic and scientific activities and establishing partnerships in projects.

The good organization of the institution, the high level of the organized activities and the professionalism of the Erasmus office recommend the Akadémia Jána Albrechta Banská Štiavnica for organizing future Erasmus mobilities and projects.

08.07.2016

Univ.Prof.PhD. Nelida Nedelcuț
